

INCM Highlights

INCM declined -3.8% (-3.1% in CAD-hedged terms) in July, primarily due to NAV discounts widening. The Fund's average NAV discount declined to -26.6% from -22.1% at the end of June.

Currently, INCM is allocated to 20 private credit portfolios (through listed BDCs), totalling more than 5,000 loans and investments, of which 84.2% are senior secured and 90.1% are floating rate. The current yield on the INCM portfolio is 12.2%, and it trades at a -26.6% discount to its net asset value. INCM's exposure to software loans is 16.4% of its portfolio.

About the Fund

The Accelerate Diversified Credit Income Fund delivers an alternative source of yield to traditional fixed income by focusing on the private credit market. The Fund aims to generate an attractive income stream through exposure to a diversified portfolio of primarily secured, floating-rate loans through allocations to leading liquid private credit vehicles.

Investment Objectives

- Provide an attractive monthly income stream
- Diversify yield
- Provide liquid exposure to the private credit asset class

1

Access to private credit

Seeks returns primarily generated by current income from private credit investments and targets monthly distributions

2

Income diversifier

An attractive and complementary income opportunity generated primarily through exposure to floating rate loans

3

Liquid and easy to implement

Provides diversified exposure to the private credit asset class through a listed ETF

4

Diversified credit exposure

Diversifies portfolios through exposure to thousands of secured direct loans to mainly sponsor-backed, middle market private companies

5

High yield potential

Direct loans have historically provided higher yield than traditional fixed income investments

High Yield Income Solution
